SUMMARY

I am a Web Developer with a passion for building innovative and user-friendly web applications. Proven ability to lead and mentor development teams, ensuring high-quality deliverables and meeting tight deadlines. I am skilled in React, NodeJS, NestJS, Git and other modern frontend technologies, with a strong focus on delivering exceptional user experiences. Committed to fostering a collaborative and supportive team environment, promoting Agile methodologies, and staying up-to-date with industry trends.

EDUCATION

Chitkara University

Bachelor of Engineering in Computer Science Engineering, CGPA 7.56

HP, India

Aug. 2013 – July 2017

EXPERIENCE

Specialist Programmer(MERN Stack Developer)

Oct 2019 – Present

Infosys Ltd

- Successfully lead team of developers and delivered complex full-stack web applications that constantly surpassed customer and partner expectations while following agile methodologies.
- Guided architectural designs and decisions, emphasizing scalability and ensured adherence to security standards and implemented measures to protect sensitive data..
- Applied deep knowledge of ReactJS, Node.js, MobX, MongoDB to develop scalable, reliable and efficient solutions.

Systems Engineer(Front-End Developer)

Aug 2017 - Sep 2019

Infosys Ltd

- Collaborated with product owners to comprehend requirements and developed efficient solutions, showcasing a deep understanding of business needs.
- Proficient in front-end development with expertise in technologies such as React, Mongo, Recoil, Docker and Git.
- Demonstrated agility in crafting fast and optimized solutions to address complex technical challenges.
- Contributed to the seamless integration of technology into business processes, ensuring the alignment of solutions with organizational objectives.

PROJECTS

E-Discovery | [ReactJS](#), [NodeJs](#), [ExpressJS](#), [Git](#), [TypeORM](#), [Jest](#)

Jan 2023 – Present

- Developed a web application for legal matter management, integrating features like matter creation, legal holds, litigation checks, and release hold notices.
- The system includes user authentication, role-based access control, document management, notifications, and analytics.
- Ensured security measures and a responsive UI for a user-friendly experience with ReactJS.
- Thoroughly tested using Jest and documented the application for seamless deployment on cloud platforms.

CICD Hub | [ReactJS](#), [Angular](#), [Mongo](#), [Git](#), [Docker](#)

May 2020 – Dec 2022

- Developed an integrated CICD/DevOps dashboard using micro-front-end architecture, CICD Hub, facilitating a user-friendly interface for teams unfamiliar with DevOps processes.
- The dashboard seamlessly integrates with Azure DevOps, providing visualizations for build pipelines, release tracking, work item management, and code repository visualization.
- Implemented real-time notifications, user management, and analytics.
- Ensured secure authentication, HTTPS, and a responsive UI, optimizing the application for streamlined deployment on cloud platforms.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, HTML/CSS, ES6

Database Systems: SQL (Postgres, MSSql, Oracle), NoSQL (Mongo, Cosmos)

Frameworks/Libraries: ReactJS, Angular, Node.js, NPM, Webpack, ExpressJS, NestJS, Jest, RxJS, NGRX, Recoil, Mongoose, JWT, RestAPI, Prisma, Zod

Developer Tools: Git, Azure DevOps, AWS, Docker, Jira, Rancher, VS Code, SonarQube, RabbitMQ, PostMan, Insomnia, Nginx

Certifications: MTA: Introduction to Programming Using Python, Microsoft Azure Fundamentals, Developing Solutions for Microsoft Azure, AWS Certified Cloud Practitioner
